Our Pure Food Grocery Store

From the very beginning of our Great Grocery and Pure Food Market and long before the advent of the National Pure Food Laws, The Big Store has enforced the most rigid care in the selection of the foods offered. We insist the quality must be absolutely pure and that only strictly fresh goods are offered. To be absolutely certain that only pure and wholesome foods could enter our model grocery we employ expert chemists to analyze all food products, who will not pass any product, no matter how well or how extensively advertised, unless it complies in every respect with the National Pure Food Law. The Greenhut-Siegel Cooper Co. Pure Food Grocery Store and Market is the largest and most representative in the world, occupying 84,640 square feet of space. No other food store compares with it either in area, volume of business or in the care taken to safegard the interests and health of its patrons.
